Supporting Regent's Park

Keeping you and your community informed

All the latest updates on HS2 construction works and other activity in your neighbourhood

Pangbourne food growing allotment on William Road

Grow your own food

We'll soon be improving the food growing allotment site on William Road thanks to grants from Camden Giving and Ward Councillors, and the great work of the Pangbourne Allotment Committee. Improvements will include better access in and around the allotments, and new food growing beds and a communal seating area for residents to enjoy the space. Works will commence in February in time for the new growing season. If you're interested in a food growing bed you can contact regentsparkgardeningclub@gmail.com

More support for local residents

Your new Community Liaison team are now based on the Regent's Park Estate at the Citizens Advice Bureau. You can find them at **Albany Street, 88-91 Troutbeck, NW1 4EJ, Thursdays and Fridays between 9am to 5pm.**

We advertised the positions as part of a local recruitment initiative in your area last year. As residents living on your estate they are working with us to make sure your concerns about HS2 works in the area are addressed. They will also be conducting door-to-door visits throughout 2020. You can contact the team by emailing highspeed2@camden.gov.uk or calling 020 7974 1040.

Demolition methods: independent review

We've listened to your concerns about the impacts of air quality and dust on residents' health while demolition works are underway. We urged HS2 to undertake an independent peer

review of demolition methods that use the protective screen, such as those used to demolish the Eskdale and Ainsdale buildings.

HS2 agreed to the independent review in December at the Euston Community Representatives Group. We will keep you updated on the

outcomes and will continue to monitor all future demolition works closely.

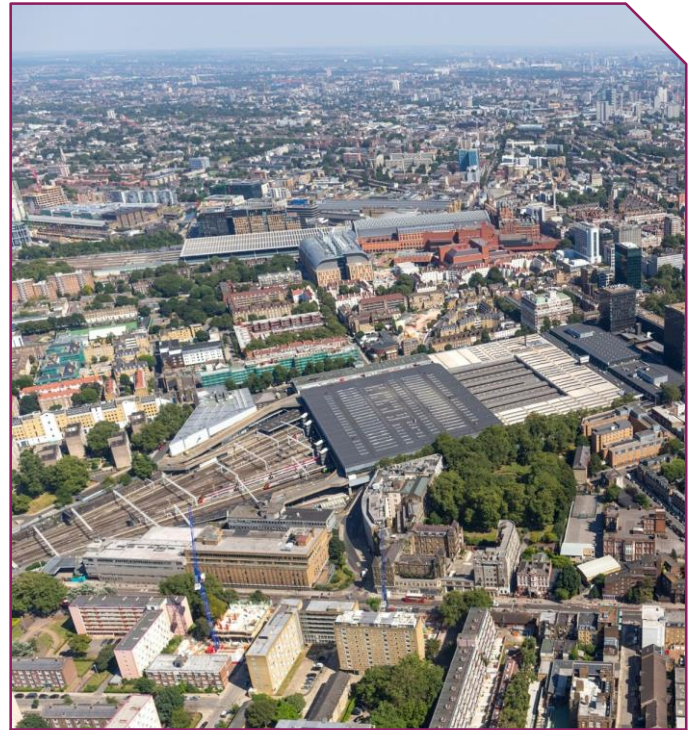

We also asked HS2 to share more information on air quality. They have published a fact sheet on their website: <https://hs2ineuston.commonplace.is/schemes/happening-now/air-quality/details>

Have your say on Euston

Don't miss your chance to share your views on the Council's draft planning brief for the area above and around Euston station and tracks. The plan will help us shape future redevelopment at and around the station – outlining what our local priorities are.

Please visit <https://www.eustonareaplan.info/> for information about our free drop-in event and to share your feedback by Monday 17 February 2020. Our next free drop-in session will take place:

Wednesday 5 February 2020, 4pm to 7pm, Surma Centre, 1 Robert Street, NW1 3JU

Euston Station

Walkabout of Euston

In January we welcomed the HS2 Chief Executive and other decision-makers on a walkabout of Euston to help address how we can make the area safer, greener and easier to navigate.

The HS2 Chief Executive had the opportunity to meet with your

new Community Liaison team who shared their local experiences living and working on the estate while HS2 works are underway.

A number of improvements for the area were agreed with HS2, and we will engage with residents on these improvements in the coming months.

Road closures in your area

Existing closures: Pedestrian access will remain open while the junction of Stanhope Street and Varndell Street is closed until late February.

The west side of Cumberland Market will remain closed until mid-February.

Upcoming closures: From 10 February to 6 March, 15 meters of the southbound lane of Stanhope Street in the junction with Park Village East will be closed.

HS2 demolition works

We are committed to doing everything we can to hold HS2 to account and make sure they reduce the impact of HS2 in your neighbourhood. You can also find their regular works updates online at [HS2inCamden.co.uk](https://www.hs2inCamden.co.uk)

Over the coming months HS2 will continue their demolition works on your estate, including demolition of the Old Tenant's Hall, Silverdale, Granby House and Stalbridge buildings.

We will continue to do everything we can to ensure HS2 reduces the affects of its works in your area.

If you have a question about HS2 works in your area or a concern about noise, dust or vibrations, please contact the HS2 team: Call free-phone 08081 434 434, Minicom 08081 456 472 or email HS2enquiries@hs2.org.uk.
