

Camden SAPB Chairs Statement for Judith SAR report

Publication of Safeguarding Adults Review: "Judith"

"Camden Safeguarding Adults Partnership Board and all the agencies and partners involved in Judith's care would like to send their thoughts and deepest sympathies to her family and all who knew her.

"Whilst the Independent Safeguarding Adults Review highlights that multiple interventions from a range of agencies took place and found demonstrations of good practice in their working, the review also found areas where improvements could be made. There are clear recommendations for agencies and partners which are being implemented as part of our ongoing commitment to learn and to improve the safeguarding and wellbeing of adults with complex needs.

"Camden Safeguarding Adults Partnership Board will closely monitor the action plan and progress agencies and partners make in acting on these recommendations."

Christabel Shawcross

Independent Chair of Camden Safeguarding Adults Partnership Board
