## NEXT STEPS : MASTERPLANNING TEAM

The outcome of the recent ballot gave the Council a clear view that you want new homes and a new estate. During lockdown we've been busy preparing for the next stage...

The Masterplanning Team will work with local residents to create a plan for what the open spaces will look like, and where the new buildings will be.

**Engineers** from the team will make sure that everything we do meets the latest safety guidelines, whilst **Planners** will ensure that the scheme gets planning permission.

The **Architect** will begin designing the buildings within the first phase of development, and preparing the detail of the external wall, internal layouts and open space including amenity space. They will work with you to ensure that the new homes meet your needs and how your community would like them to look.

These roles are being advertised and we have already received interest from a number of qualified teams.

Steering Group members will be involved in selecting the best team. The appointed team will run a programme of events and activities to continue to work together at this exciting stage in the scheme.

**Nobody knows the needs of their area better than the people who live in it, so your continued input and involvement will be vital in ensuring we get this right.**
