Camden Safeguarding Adults Partnership Board SCR publication statement – case of ZZ

“The Camden Safeguarding Adults Partnership Board (SAPB) was very sorry to learn of the unfortunate circumstances which led to the death of ZZ. The Board welcomes this comprehensive serious case review – which provides invaluable learning for all agencies on helping people who are reluctant to accept support.

We’re confident that the recommendations in this report will improve the way we work with people in similar situations in the future, and both Camden SAPB and all individual agencies are developing detailed action plans in response. The Board will hold all agencies to account in implementing and monitoring the impact of these actions on improving the safeguarding and wellbeing of adults at risk in the future.

On behalf of Camden SAPB I would like to extend our condolences to the family and friends of ZZ and thank them for the insight into her life. We would also like to thank all organisations involved for their transparency and commitment to making the changes that will help to prevent similar deaths in the future wherever possible.”

Marian Harrington
Independent Chair
Camden Safeguarding Adults Partnership Board
