

# Updates on Actions

Planning Together

Poppy and Andrew met to agree actions from feedback given at Planning Together on Getting Online

## Action: What support can people get to purchase the right WiFi package?

We are talking to **housing officers** to see if they could provide support on purchasing a WiFi package.

**Support providers** in Camden can offer:

- **Unity Works** offer adult learning courses on Social media safety
- **Centre 404** offer support and are planning a workshop on internet access later this year
- **Camden People First** can provide support with accessing Internet packages.
- **Supported Living providers** will support all their residents to purchase and use their WiFi and devices.

## Action: What training can Camden provide?

- There are lots of **courses** available, the information is in the minutes of the last meeting.
- **Camden Adults Learning** will work with **Synergy** to create a course for people with LD in the autumn.

Wi-Fi

## Action: Are any plans in Camden to introduce Camden wide WiFi?

- There are no local plans but we have put the idea forward for the future

★ **Action: What easy read guidance is there (e.g. using the internet, online banking, online shopping)?**

- There is a list of [Easy Read guides](#) online. Please ask if you would like a copy.

★ **Action: What can Google offer in terms of training and support?**

- Google do not offer training and support at the moment but will make contact if they do.
