

Camden's Autism Plan

Presented by Rachael Bond, Adults' Commissioning Team
and Synergy

8th February 2022

We want to talk about updating the Camden autism plan

Synergy have been thinking about ways the Camden autism plan can include the views of

- autistic people who have a learning disability
- and their families and carers

We want to write a plan of what things will make life better for autistic people in Camden - we want to plan with you, to make sure

- it includes lots of people with different experiences
- and it focuses on what matters to you

We will talk in small groups about

- what works well

- what doesn't work well

- what we need to do better to support autistic people and their families and carers – and how we can achieve this
