Angela Hassiotis

I am a **psychiatrist**

I work at **CLDS** and **UCL**

I do **research** at UCL

Research means

- asking questions

- doing tests

- comparing results

- publishing what we find

My research is about

- health services for people with learning disabilities

- treatments for people with learning disabilities

- emotional problems in people with learning disabilities

- stigma and learning disabilities

I teach about learning disabilities

I work together with

- local charities

- service users with learning disabilities

- other researchers

- NHS and social care professionals

Why do we do research?

to improve the lives of people with learning disabilities

to find out what is the right NHS support for people with learning disabilities

How can I be involved?

- tell us what is important for you

- be a participant

- be a member of a research group

- help write a report

- talk about the project

You will be paid for your work

and

feel good about helping people with learning disabilities and their families

Thank you!
