

Camden Safeguarding Adults Partnership Board

safeguarding strategy 2022 to 2025

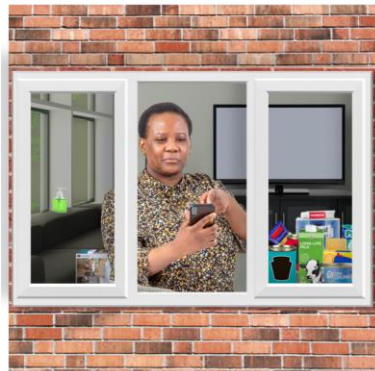

The **Safeguarding Adults Board** is a group of people working together to support adults who may be at risk of harm

Safeguarding means making sure you are safe

The important things to keep you safe

- people with care and support needs may be more at risk of abuse or neglect
- what would you like us to do about it?
- do you feel safe in your own home?
- do you feel safe walking on the streets, visiting the shops or using public transport?
- is someone you live with being rough with you?
- if you live in a care home, are the staff kind to you?

Making Safeguarding Personal

- we will support you on your own terms

- we want to offer support in a way that works for every person

- we will talk with you to find the best way to keep you safe and make your quality of life better
- do you feel that the care and support you get is personal to you?

For our next strategy do you think we should do more to raise awareness of what abuse is?

- How do you think we can do this?

How you can help us

- our Community Engagement Group wants to hear more from residents this year
- what is the best way to involve you?
- how can you tell us what more we need to do over the next **5** years?
