

The Big Plan 2025

for adults with learning disabilities

 Camden

The Big Plan

What we said is important

Having a home that is right for me

Finding and keeping a job

Feeling safe and connected

What we said is important

Recognising different needs

Knowing where to get support and information

Having difficult conversations

How are we doing?

We need to do something called a **stock take**.
This is when we check to see which things we:

- Have done

- Have not done

- Need to do differently

You can help us by telling us which things are most important to you.

The next Big Plan

What do you want us to do?

How do you want us to work with you?
