Statement of reasons

Argyle Square area - Safe and healthy streets

*The Camden (Moving Traffic Restrictions) (Amendment No. *) (Argyle Square, Argyle Street, Belgrove Street, Crestfield Street and St. Chad's Street) Order 202**

*The Camden (Parking Places, Loading Places and Waiting, Loading and Stopping Restrictions) (Amendment No. *) Order 202**

SUMMARY OF CHANGES

The London Borough of Camden has developed and consulted on permanent Safe & Healthy streets changes in the Argyle Square Area. The scheme has been developed to improve safety, amenity and accessibility for all road users, including in particular for cyclists and pedestrians using the street, and to enhance the area through greening and artwork.

The following permanent changes are proposed in Argyle Square Area:

Proposals –

- Widening any parts of the pavement on Argyle Street, Argyle Square, Belgrove Street, Crestfield Street or St Chad's Street that are less than 2m wide. This will create more space for people walking and wheeling around the area.
- Adding raised crossings (where the pavement and road are at the same level) to make it easier for people to cross the roads on the west, east and south sides of Argyle Square and Argyle Street.
- Adding parallel Crossings (where pedestrians and people cycling can cross together) to make it easier for people walking, wheeling and cycling to cross the road across:
 - the north side of the junction of Belgrove Street, Argyle Square and St Chad's Street
 - the north side of the junction of Crestfield Street, Argyle Square and St Chad's Street
- Keeping two way cycling routes across the area on one-way streets, with the exception of the north part of Belgrove Street leading to Euston Road, to make it easier and more efficient for people who cycle to travel around the area.
- Adding more cycle parking stands to Euston Road to increase cycling facilities locally.
- Relocating some Santander bike stands from Belgrove Street to Crestfield Street and Argyle Street to spread these bikes out and make them easier to access.
- Introducing parking for e-scooters and cycle hire bikes on Argyle Street to improve access to shared micromobility and provide designated parking facilities.

- Closing St Chad's Street (between Belgrove Street and Argyle Street) and Argyle Square (between Belgrove Street and Crestfield Street) to motor vehicles and become cycle and pedestrian only. This space will have seating, planting and play features for children including colourful markings on the streets showing scooting routes, boulders, stepping stones or timbers to balance on. Vehicle access will only be maintained for the garages of two privately owned properties.
- Creating an outdoor space on St Chad's Street outside the southern side of Belgrove House, which could be used as space for a café or events.
- Adding planting spaces – and Sustainable Drainage Systems (SuDS) where possible - across the area including on Argyle Street, Argyle Square, Belgrove Street, Crestfield Street and St Chad's Street. This will improve the look and feel of the area, contribute to improvements in air quality and improve biodiversity. The SuDs will also control flow rates, reduce volumes of runoff, provide water quality benefits, and create opportunities for biodiversity and amenity.
- Improving the setting of the park in both visual and environmental terms, including through additional tree planting which will offer a cooling effect by reducing the surface area of hard standing, will provide increased canopy and shade, and will mitigate the effects of climate change.
- Based on data around occupancy, the proposals involve the removal of a total of 39 resident bays, leaving 60 resident bays with 54 Active Resident Permits. This is considered sufficient to cater to the number of active permits in the area. In addition, 9 existing pay-by-phone bays would be removed.
- Paid for parking would be kept nearby at: the western end of St Chad's Street, close to the junction of Gray's Inn Road; and Argyle Street between the junctions with Birkenhead Street and Gray's Inn Road.
- 6 Car Club bays, 5 solo motorcycle bays (down from 6 solo motorbike bays currently), and 1 loading bay are proposed to be relocated from their existing locations on Belgrove Street, Crestfield Street, St Chad's Street (west) and Argyle Square (north) to Argyle Square (east and west) and Argyle Street.
- 2 of the Car Club bays and the 5 solo motorcycle bays are proposed to be relocated to sections of single yellow line, which does not reduce existing parking bay numbers.
- A space on Crestfield Street will be used as a vehicle pad, with no waiting or loading at any time with the exception of authorised vehicles who may park within the limits of the traffic regulation order when attending the building for gas supply purposes.

REASONS FOR PROPOSING TO MAKE THE ORDERS

The proposed changes have been developed to help deliver on the Council's commitments to introducing cycling, walking, wheeling, road safety and public realm improvements in the Argyle Square Area as set out in its Transport Strategy Delivery Plan 2025-2028. The proposals respond to policies and actions in Camden's Transport Strategy, and associated Cycling Action Plan, Road Safety Action Plan and Walking and Accessibility Action Plan.

Private motor-vehicle access in the King's Cross Ward is low, meaning that walking, wheeling, cycling and public transport are important modes in the area and that reallocating kerbside space that is currently used for parking to more sustainable uses, such as crossings, is particularly impactful here. Introducing more cycling infrastructure would also help make cycling more accessible to groups who might be less represented in using this mode of transport, including older people, children, disabled people, women, and people from ethnic minorities, while improving access to one of the cheapest transport modes for people on low incomes.

The Argyle Square Area Safe and Healthy Streets proposals deliver against the Cycling Action Plan (CAP). The CAP synthesises policies and measures in the CTS that enable and support increased and safe cycling levels in Camden. Argyle Street, Belgrove Street and Crestfield Street are all identified as secondary cycling routes within the CAP, and segregated cycle routes encourage more people to cycle. The potential traffic speed reductions resulting from the changes and planting and trees may improve local air quality and climate resilience, which would also support local health and wellbeing.

Overall, the walking, wheeling, cycling, road safety, public realm and shared mobility improvements would align with the Council's policy vision set out in:

- We Make Camden
- Euston Area Plan
- Camden's Transport Strategy and supporting action plans
- Camden's Climate Action Plan
- Camden's Clean Air Action Plan
- Camden's Health and Well-Being Strategy
- Camden Tree Planting Strategy 2020-25
- Camden Biodiversity Strategy

202* No. ***

The Camden (Parking Places, Loading Places and Waiting, Loading and Stopping Restrictions) (Amendment No. *) Order 202*

Made: ** **** 202*

Coming into force: ** **** 202*

The Council of the London Borough of Camden, after consulting the Commissioner of Police of the Metropolis, in exercise of the powers conferred by sections 6, 45, 46, 49 and 124 of and Part IV of Schedule 9 to the Road Traffic Regulation Act 1984¹, and of all other powers thereunto enabling, hereby make the following Order:

Citation and commencement

1. This Order may be cited as the Camden (Parking Places, Loading Places and Waiting, Loading and Stopping Restrictions) (Amendment No. *) Order 202* and shall come into force on ** **** 202*.

Interpretation

2. (1) In this Order:

“Council” means the Council of the London Borough of Camden;

“map based schedule” means a map tile attached to this Order, to be read in conjunction with this Order and the Order of 2025, which depicts the parking places or loading places designated by this Order, and the waiting or loading or stopping restrictions imposed by this Order, and, in conjunction with the map schedule legend, identifies the type of each particular parking place or loading place or length of waiting or loading or stopping restrictions, and, if appropriate, certain of their governing provisions:

Provided that the Council does not accept responsibility for any inaccuracies contained in the Ordnance Survey data relied upon to create the map based schedule and where a parking place, loading place or waiting or loading or stopping restriction is depicted on the map based schedule, that parking place, loading place or waiting or loading or stopping restriction will continue to apply irrespective of any subsequent changes that have been made to the underlying Ordnance Survey data.

¹ 1984 c.27

“map schedule legend” means the map schedule legend attached to the Order of 2025 which, when used in conjunction with a map tile, identifies the specific type of parking places or loading places designated by this Order, and the waiting or loading or stopping restrictions imposed by this Order, to which the provisions of this Order apply, and, where appropriate, certain of their governing provisions;

“map tile” means an individual map with a specific tile reference, being part of the map based schedule attached to this Order;

“the Order of 2025” means the Camden (Parking Places, Loading Places and Waiting, Loading and Stopping Restrictions) Consolidation Order 2025².

- (2) Any reference in this Order to any other Order or enactment shall be construed as a reference to that Order or enactment as amended, applied, consolidated, re-enacted by, or as having effect by virtue of any subsequent Order or enactment.
- (3) Unless the context otherwise requires, any expression used in this Order which is also used in the Order of 2025 shall have the same meaning as in that Order.

Substitution of map tiles

3. (1) Without prejudice to the validity of anything done or to any liability incurred in respect of any act or omission before the coming into force of this Order, the Order of 2025 shall have effect as though for the map tiles attached to that Order there were substituted the map tiles similarly referenced and attached to this Order.
- (2) The substitution of any map tile referred to in paragraph (1) of this Article will have the effect of revoking or omitting any provision designated or imposed or applied by a previous version of that map tile and not incorporated into the latest version.

Designation of parking places or loading places and application of the Order of 2025 thereto

4. (1) Each area on a street identified in a map tile as a parking place or loading place and, where applicable, by way of the map schedule legend as an area marked out or signed for the use therein of specified classes of vehicles following the conditions specified in the Order of 2025 in relation to that type of parking place or loading place, as the case may be, is designated as a parking place or a loading place.
- (2) Unless otherwise so identified, a parking place or loading place shall be bounded on one side of its length by the edge of the carriageway and be an area marked either by a traffic sign or by another method of indicating the extent of a parking place as specified in the Traffic Signs Regulations and General Directions 2016³.

² LBC 2025/023

³ SI 2016/362

- (3) The provisions of the Order of 2025 shall apply to an area designated as a parking place or loading place by this Order as if in those provisions any reference to a parking place or loading place, as the case may be, included a reference to an area designated as a parking place or loading place by this Order.

Waiting restrictions, loading restrictions and stopping restrictions and application of the Order of 2025 thereto

5. Without prejudice to the validity of anything done or to any liability incurred in respect of any act or omission before the coming into force of this Order, the Order of 2025 shall have effect as though:-
- (a) any waiting restriction or loading restriction identified in a map tile and, where applicable, by way of either a map tile label or the map schedule legend, or both, and marked out or signed as a waiting restriction or a loading restriction shall be construed as through it were a restricted street referred to in the Order of 2025; and
 - (b) any stopping restriction identified in a map tile and, where applicable, by way of either a map tile label or the map schedule legend, or both, and marked out or signed as a stopping restriction shall be construed as through it were a stopping restriction referred to in the Order of 2025.

Placing of traffic signs, etc.

6. The Council shall:
