

There are many websites devoted to and offering advice about elective home education. These are a selection of some of them. The websites were correct as of the date the above. Websites do change from time to time and it may be more appropriate to do a search via a search engine.

The inclusion of an organisation or a website **is not an endorsement**. You should talk with the individual organization or review the website to see if they will be able to provide the service / support you or your child needs.

Website address is first and then the name of the organization and some information about them. If a website does not work please email ehe@camden.gov.uk

Forest School run a home education group on Mondays on Hampstead Heath 10am-2pm for children aged 5-11. Its £45.00 per session, they do offer some part funded

spaces for those on low incomes. They also run sessions afterschool in various locations in Camden/Islington and fulltime holiday clubs

Forest School clubs offer opportunities for children to work outdoors in Local wild spaces on their emotional, social and physical well-being in small groups. Forest school sessions are child-led. Children learn new skills through using natural materials to craft useful and beautiful things, engage in “Risky play” and build confidence and resilience. Careful observation of the capabilities of participants by the Forest School leader is necessary to allow participants to create meaningful experiences on the edge of their capabilities rewarding them with personal growth and re-organisation of self-concept.

<http://awe.gn.apc.org>

Adventures with Education is an unincorporated voluntary association supporting home educating families. AWE is a Hackney based group although we support families throughout London. It is an informal support group for home-educating families and not a supplementary school

It is a self-funding group providing regular meetings, trips, workshops and residential holidays for members. It relies on parental input to make the group work. As well as various ‘one off’ workshops, it has regular structured sessions taking place weekly, bi-weekly and monthly. Examples of regular activities include book club, Awe-chestra, story time, ‘the great debate’, French, arts and crafts, science

It meets every Tuesday during term time 11AM- 3PM in Kid’s Adventure Playground Spring Lane Big Hill Clapton E5 9HQ

Plumton College

[14-16 Courses - Plumpton College](#)

14-16 Elective Home Educated Students

Parents of Year 10 and Year 11 pupils who are home educating their children, can now apply for a vocational programme for their child. The usual schedule of study is three days a week. Students can choose vocational subjects that interest them, alongside their core subjects in English, maths, PSHE and science.

Plumpton College will only consider home-educated students whose parents can confirm their child's home-educated status (e.g. a copy of the de-registration letter). They must have been out of education for at least six months. If accepted onto a course, the student's course will be funded by the Education Funding & Skills Agency. However, costs of course materials and travel (equipment, course handbooks, safety wear) are the responsibility of the parent/guardian. There are currently no bursaries for students on a 14-16 programme.
