

Music Resources

There are many websites devoted to and offering advice about elective home education. These are a selection of some of them. The websites were correct as of the date the above. Websites do change from time to time and it may be more appropriate to do a search via a search engine.

The inclusion of an organisation or a website **is not an endorsement**. You should talk with the individual organization or review the website to see if they will be able to provide the service / support you or your child needs.

If you find a website does not work please email ehe@camden.gov.uk

[Camden Music Trust](#)

Camden Music Trust is a charity that funds a broad range of music education programmes and scholarships delivered through the Camden Music Service. In Camden, almost 32% of children live below the poverty line, for them gaining access to music tuition can be extremely difficult, if not impossible. Camden Music Trust is committed to addressing this.

Our aim is to ensure all children and young people living in Camden receive and benefit from a music education.
